

Fire Sprinkler Save

On 7-6-13, Nicollet Ridge Apartments, 101 McAndrews Rd W, Burnsville had a fire. Cause of the fire was due to improper disposal of fireworks debris. Kids were setting off what appeared to be legal fireworks without adult supervision. They stomped out the fireworks and placed the debris in a Cub plastic bag. They threw them down an apartment trash chute. The fire started in the dumpster and one sprinkler head activated and controlled the fire.
